

Luke Pascasio
Engr 115
Resume task
11/4/16

After completing the first draft of my resume I had Belle Ciaotti look it over and give me feedback. She informed me that I should add my junior college as part of my education and put the relevant classes that I took there as well. I also added my website URL and other small edits, as her request. Also, more information was added to my other experience section.
